RIDE THE LIGHTNING

TOYOTA HIGH-CAPACITY ELECTRIC CUSHION FORKLIFT

Think real power needs an IC engine? Think again. The impressive, dependable power of Toyota Heavy Duty. Now indoors and electric-powered. The biggest tasks in automotive, forging, and paper industries are no match for the high-voltage power offered by the THD Electric Cushion.

BUILT HEAVY DUTY

A rigid welded chassis with heavy steel cross supports. Impact resistant side thrusters. Up to 80 volts of power. And a protection system to back up all that power. This heavy duty powerhouse is built to last from the sturdy overhead guard all the way to the durable two-coat rust-inhibiting paint.

POWER AT YOUR FINGERTIPS

All that power needs protection. A low battery lift interrupt guards the electrical system and motors from low voltage damage. Load-sensing on-demand power steering ensures optimal hydraulic system efficiency. Standard hood-mounted hydraulic controls provide convenient, comfortable control of all functions for operators. And the high-visibility design helps keep operators aware of their surroundings while in operation.

ENGINEERED FOR OPERATORS

Advanced ergonomics keep operators comfortable while they work. Easily viewed gauges and auxiliary controls make monitoring performance intuitive and convenient. Add in a standard wide-view mast that ensures a wide field of operator vision, and you have a comfortably powerful machine.

LEAN AND MEAN

Prepare to have your versatility expectations blown away. Power. Durability. All the high standards of the Toyota Heavy Duty line of forklifts with the compact maneuverability for indoor operations. This reliable electric-powered machine will stand up to any indoor challenges you throw at it. Strength you can depend on with Toyota.

AN INVESTMENT THAT PAYS YOU BACK

Toyota demands the best for its customers. The U.S.-built High Capacity Electric Cushion is engineered from the ground up as a complete product. One with better components and well-thought-out integrated systems that work together to deliver intuitive, dependable performance day after day. Toyota forklifts don't require a lot of service. But when they do need service, it's fast and easy — by design. And legendary Toyota quality means more productivity over the lifecycle of your forklift, along with lower repair costs. Higher residual value is another bonus.

SAFETY COMES STANDARD

At Toyota we know people are your greatest asset. That's why the High-Capacity Electric Cushion forklift includes all the necessary features to help keep your people safe. A wide-view mast. A high operator field of vision. An operator presence sensing system. All come together to give the safe operation and dependable power you've come to expect from Toyota forklifts.

COUNT ON **THE LEADER**

- ▶ Toyota leads in quality, durability, reliability, and value thanks to advanced technology and the world-renowned Toyota Production System.
- ▶ With the broadest and most complete set of material-handling solutions in the industry, Toyota Dealers specialize in meeting all of your needs — from a single forklift to an entire fleet.
- ▶ Toyota's industry-leading network of dealers backs every forklift with proven product support. Resources include factory-trained service technicians, Toyota Genuine Parts, and flexible leasing and financing packages through Toyota Industries Commercial Finance.

- ▶ Toyota forklifts have ranked No. 1 in safety and quality since 2002, according to studies conducted by Peerless Research Group.
